- (2) All shares are bearer shares. The shares do not have a nominal value (no-par shares).
- (3) The company's share capital of EUR 26,325,946.00 was paid in full by changing the legal form of the former GFT Technologies Aktiengesellschaft with its registered office in Stuttgart, entered in the Commercial Register of Stuttgart Local Court under HRB 727178, into a European public limited-liability company (Societas Europaea, SE).
- (4) A contribution in kind was previously made to the share capital for the (then) total amount of DM 2,000,000.00 by transforming the former company GFT Gesellschaft für Technologieconsulting mbH in St. Georgen, entered in the Commercial Register of Villingen-Schwenningen Local Court under HRB 1840, into GFT Technologies Aktiengesellschaft by way of a change of legal form by transformation resolution passed on 27 July 1998. For this purpose, 400,000 no-par shares were issued, namely to the shareholders of the former GFT Gesellschaft für Technologieconsulting mbH, with 240,000 shares going to Mr Ulrich Dietz and 80,000 shares each going to Ms Maria Dietz and Lucius Banck. The surplus of the assets over the liabilities of the transformed company guaranteed by the shareholders of the legal entity changing its legal form was then DM 2,000,000.00.
- (5) When new shares are issued, a start date for profit participation may be determined in deviation from section 60 (1) German Stock Corporation Act (AktG). The form of the share certificates, dividend warrants and renewal coupons shall be determined by the Administrative Board. One certificate may be issued for several shares of a shareholder. The shareholders' right to demand certification of the shares is excluded.
- (6) The Administrative Board is authorised to increase the company's share capital by up to a total of EUR 10,000,000.00 (Authorised Capital 2021) until 9 June 2026, once or in partial amounts several times, by issuing new bearer shares (no-par shares) in return for contributions in cash and/or in kind.

The sum of shares issued under Authorised Capital 2021 and the shares that may be issued or are to be issued to service conversion and/or option rights or to fulfil conversion or option obligations from bonds with option and/or conversion rights or obligations (or a combination of these instruments) issued during the term of this authorisation may not exceed a total amount of the share capital of EUR 13,162,973.00 (corresponding to 50% of the share capital).

The new shares must generally be offered to the shareholders for subscription (directly or in whole or in part also by way of indirect subscription pursuant to section 186 (5) sentence 1 AktG). The Administrative Board is authorised to exclude the statutory subscription right of shareholders,

- insofar as it is necessary for fractional amounts resulting from the subscription ratio;
- in the event of capital increases in return for contributions in kind for the purpose of issuing shares for the (also indirect) acquisition of companies, parts of companies, investments in companies or other assets in connection with the aforementioned company acquisitions (even if a purchase price component is paid in cash in addition to the shares);
- in the event of a capital increase in return for contributions in cash, provided that the issue price of the new shares is not significantly lower than the stock market price and the total pro rata amount of the share capital attributable to the new shares for which the subscription right is excluded does not exceed 10% of the share capital, either at the time this authorisation comes into effect or at the time it is exercised. This limit shall include those shares which are issued during the term of this authorisation using an authorisation to sell repurchased treasury shares in accordance with section 186 (3) sentence 4 AktG under exclusion of subscription rights which is valid at the time this authorisation takes effect. Shares issued or to be issued to service convertible bonds or bonds with warrants shall also be included in the calculation to the extent that these bonds are issued during the validity of this authorisation in accordance with section 186 (3) sentence 4 AktG;
- in order to grant the company's Managing Directors, members of the representative body of any of the company's affiliated companies or employees of the company and its affiliated companies new shares in connection with share participation programmes or other share-based programmes if the total pro rata amount of the share capital attributable to the new shares for which the

subscription right is excluded does not exceed 5% of the share capital, either at the time this authorisation comes into effect or at the time it is exercised. To the extent permitted by law, the new shares may also be issued in such a manner that the contribution to be paid on such shares is covered by that part of the annual net income which the Managing Directors and the Administrative Board can allocate to other retained earnings under section 58 (2) AktG.

The sum of shares issued on the basis of Authorised Capital 2021 under exclusion of shareholders' subscription rights must not exceed a proportional amount of 20% of the share capital – taking into account other shares of the company which, during the term of Authorised Capital 2021, are sold or issued under exclusion of subscription rights or are to be issued under bonds issued after 10 June 2021 under exclusion of the subscription right – neither at the time this authorisation comes into effect nor at the time it is exercised.

The Administrative Board is authorised to determine the further details of a capital increase and its implementation.

- (7) The company's share capital is conditionally increased by up to €10,000,000.00 by issuing up to 10,000,000 new no-par bearer share (Conditional Capital 2022). The conditional capital increase will only be carried out to the extent that the bearers of conversion or option rights from bonds with conversion or option rights and/or conversion or option obligations (or a combination of these instruments), which GFT Technologies SE or domestic or foreign companies, in which GFT Technologies SE directly or indirectly holds a majority of the votes and capital, have issued on the basis of the authorisation resolution passed by the Annual General Meeting on 1 June 2022 under agenda item 7, exercise their conversion or option rights or conversion or option obligations from such bonds are fulfilled, and to the extent that the conversion or option rights or conversion or option obligations are not satisfied by treasury shares, by shares from authorised capital or by other benefits.

The new shares participate in the profit from the beginning of the financial year in which they are issued; in derogation from this, the Administrative Board may, to the extent permitted by law, determine that the new shares participate in the profit from the beginning of an earlier financial year for which, at the time of their issue, no resolution by the Annual General Meeting on the appropriation of the distributable profit has yet been passed. The Administrative Board is authorised to determine the further details of the implementation of the conditional capital increase.
